

NOTES ON VERIFICATION

PROCEDURE

To participate with verification, ALL questions, blue and black, must be completed. Black fields are substantive questions about your LGBTIQ+ diversity management, blue fields are verification of your information.

Each question offers the possibility to submit further supplements as comments in addition to the answer.

After submitting the questionnaire, you will immediately receive an email with your preliminary score, which our system calculates automatically. During verification, we carefully check your answers and evidence. It is therefore possible that your verified score differs from the preliminary score. In case of missing information or evidence, we will contact you by Email.

You will receive your verified result by e-mail within a few weeks.

In order to prevent possible data loss, we recommend that you save your data on a regular basis.

EVIDENCE

For many questions, we request proof of the information you have provided. Without this evidence, answers cannot be evaluated.

Evidence can be documents or photos (e.g. screenshot of a website) or short explanations how you implement a measure concretely.

Please do not delete the evidence from your computer before completing the verification process so that you can still access it if we have any queries.

Please understand that we cannot award points for projects or events that are in the planning stage but have not yet been realized.

DATA PROTECTION

We assure you that we will not communicate any personal data or information on internal processes to the outside or share it with third parties. If persons are explicitly asked, this only serves to assure us that a corresponding position and responsibility exists in your company. As part of the PRIDE Index, the total score achieved by your company is published as a percentage, as well as the results of the four subcategories.

REGISTRATION

A written registration is necessary for the verification.

Only when we have the signed registration, we can start with the verification.

You can obtain the registration documents as a download on our homepage or after sending an informal e-mail to:
pride-index@uhlala.com
